---

*Due to the long stretch of unusual hot, dry weather,  
the City of Seldovia is kindly requesting that you make an effort  
to CONSERVE water.*

- Take shorter showers; shortening a shower by two minutes can save up to 150 gallons/month
  - Please refrain from watering lawns and gardens
  - If you need to water your lawn and garden, use grey water
    - Turn off faucet while cleaning your fish
  - Turn off the faucet while washing hands and brushing teeth
    - Turn shower off while washing and lathering
    - Check for leaky toilet tanks and faucets
- Please refrain from washing your cars and trucks at this time

The City of Seldovia thanks you!  
Every drop counts!
